Q ⌄ Find Jobs   ? 🔔 IKRAM ULLAH ⌄

IKRAM U.

📍 **Stockholm, Sweden** - 7:00pm local time - 1 hr ahead

Data Scientist with a PhD in Machine Learning/Bioinformatics

I have industry experience of working with call center data optimization for Fortune 500 clients like AT&T, Gieco, Time Warners Cable etc. Optimization included complete data mining operations from pre-processing to model validation and visualization. Additionally, I have worked with very large scale financial data to forecast stock trends. Last but not the least, I have research level experience in Machine Learning especially Bayesian methods and using Markov Chain Monte Carlo (MCMC) to sample from high-dimensional models, and descriminative techniques... **more**

WEKA / TIMBL Text Classification
Mar 2011 - May 2011
★★★★★ 5.00

Ikram has done an outstanding piece of text classification/data mining work for us.
He worked to a very tight specification and communicated extremly well.
He went beyond the call in solving some particular problems and we are very
happy with the result. His code was tightly written and documented well.
We can strongly recommend Ikram for future work.
